**SKYTREE White**

An original color derived from Japan’s traditional aizome, the lightest hue used in indigo dyeing. The faint bluish white on the Tokyo skyline has the subtle luster of a white porcelain.

**Vibration Control Structure similar to that of the Goju-no-to five-story pagoda**

The center column made of reinforced concrete at the core sways differently from the steel-frame tower body at the periphery, thus suppresses vibrations of the whole structure during high winds and earthquakes. This damping mechanism is called as “shinbashira” suppression, which is “shinbashira” of Goju-no-to towers, earthquake. **A Broadcasting Tower**

TOKYO SKYTREE transmits radio waves for digital terrestrial and other forms of broadcasting. The high elevation of the transmission source will expand the broadcast area for 1-seg mobile device transmissions.

---

**Lighting patterns that casts colors onto old town sceneries**

Lighting features change among “Edo”, “Nobori” and “Iki” alternately every day. You cannot miss special lightings of each season or events as well.

---

**TOKYO SKYTREE Tembo Galleria (Floor 445, 450)**

Tembo Galleria

A stepped 110-meter “air walk” from Floor 445 up to Floor 450. With audio effects that change with the season and weather.

**Sorakara Point**

A fantastic space at 451.2 meters, the highest point visitors can reach. Visitors can enjoy seasonal limited events or other services.

**Commemorative Photography (Floor 445)**

Memorial photo at the highest point of the TOKYO SKYTREE. How about one shot for commemoration of sky walk?

---

**TOKYO SKYTREE Tembo Deck (Floor 350, 345, 340)**

**Painted Folding Screen:**

"EDO HITOMEJU BYOBU" The ensemble of Edos depicted on the folding screen by Katsui Kunitaga during the Edo period resembles incredibly with the actual view from the Skytree. Witness by yourself by comparing the actual view with the picture on the screen.

**Glass floor**

Step onto the 12mm-thick four- glazed tempered glass floors and look down at your feet. The breathtaking view and magnificent beauty of TOKYO SKYTREE steel framework will move you.

**Commemorative Photography (Floors 350, 340)**

How about taking a memorial photo with an object of a cloud on the back of the optimal scenery. Please use this service as a commemoration of visiting SKYTREE. Selfy is also allowed.

---

**Tembo Shuttles (elevators)**

Lower floors ~ Tembo Deck

Four lines of Tembo Shuttles have different decorations featuring spring, summer, fall and winter respectively. The shuttles operate at the speed of 600m/minute and reach to the Tembo Deck in about 50 seconds.

Tembo Deck ~ Tembo Galleria

Two lines of Tembo Shuttle elevators have see-through front panel and ceiling to raise anticipation for observation.

---

**Birthday Service**

We have planned various services for visitors who have entered the Tembo Deck in their birthday month. Please ask nearest staff for details.
